Accessories

- Telephone pickup microphone LFH9162
- Meeting microphone LFH9172
- Clip-on microphone LFH9173
- Rechargeable batteries LFH0153
- Power supply LFH0142

Highlights

Automatic gain control

The automatic gain control lets you adjust to the optimum recording level at any time.

End-of-letter tone

The end-of-letter index tone indicates the start of each document and number of recordings.

Professional editing

Easy and quick file editing via convenient slide-switch operation. It offers a fast response and is designed for single-handed operation.

Fast access

The turbo wind function allows very fast and simple access to any part of your tape.

LED indication

The status LED always shows if your battery is running low and the record status.

Warning tones

The warning tones for end-of-tape and low battery status ensure that no dictation is cut off.

Voice-activation

Voice-activated recording is a convenience feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recording stops automatically after you stop speaking and restarts automatically when you start speaking again.

Transport lock

With the transport lock activated, your dictation recorder is protected from unintentional operation.

Internal recharge

Help protect the environment and save your money by simply recharging the batteries of your device instead of buying new batteries (optional Philips rechargeable batteries LFH0153 required).
